

James Walker® KlickFix®

Product success: End suction pump at a paper and board mill

A KlickFix® cartridge was installed to minimise the downtime required for adjusting and replacing the existing compression packing. The KlickFix would be able to offer the customer extended periods of operation due to the elimination of adjustment.

- Shaft diameter: 70 mm (2.756")
- Shaft speed: 1450 rpm/1046 fpm
- Media: Dirty river water
- Replaced: Compression packing
- No visible leakage
- Extended service life
- Reduced maintenance as no adjustment necessary
- Overall cost saving
